The concept of an easily transportable all purpose, foldable camera crane which can quickly be set-up on location or in studio to become a traditional type camera crane with the possibility of 15 ft. 9 in. (4.81 m) rise and fall, lens height up to 13 ft. 9 in. (4.20 m), maximum reach of 12 ft. (3.66 m) and capable of supporting two technicians of average size plus a camera (say 550 lb/249 kg), seemed to us to be a rather good one.
