

# Shooting a sky diver falling at 120 mph, you've got enough on your mind.

## So you choose Kodak film.

You step out of the plane. The sky diver follows. You glide into position and the action starts. You've only got about 45 seconds and you're depending on a lot of things for success. Your skill. Your chute. And your film.

Kodak quality means consistently uniform film properties. So you know you can depend on Kodak to give you the results you want now, and in the future, whether you're

at 7,000 feet and falling fast or in the controlled environment of the studio. You can depend on something else from Kodak, too.

Help. If you run into a really tough problem, call a Kodak Technical Representative. He's had a lot of experience in solving technical problems. And he's got the backing of some very talented people at Kodak.

Part cameraman, part sky diver. Up there, you've got enough on your mind.

## Wireless Microphone System

The New Swintek wireless microphone system incorporates state-of-the-art solid state circuitry. Tuning is automatically adjusted by a precision crystal element. Hi-Band operation, 150-220 MHz, is virtually free of static, dead spots and interference common to Low-Band and current 88-108 MHz systems. A signal to noise ratio in excess of 60 dB is typical for a distance of 100 feet.

### MARK III VHF

#### TRANSMITTER FEATURES

- Powered by 9 V radio battery
- Accepts low impedance input and has internal level adjust
- Compressor/limiter to prevent acoustic overload
- Crystal controlled
- Dimensions 3.75" long 2.25" wide .85" thick

#### RECEIVER FEATURES

- Powered by 1.5 V Pencil AA battery or external 10-24 V supply
- LED Monitoring capability: audio, HF carrier level, battery
- Simultaneous audio outputs: balanced low level, unbalanced line.

### MARK IV VHF

#### TRANSMITTER FEATURE

- High Input: Powers Sony ECM-50 microphone thru miniature phone plug with locking collar
- Low Input: Standard 50-250 Ohm low impedance mike input with miniature phone plug with locking collar
- Compressor Indicator LED: Allows the mike gain to be set at the transmitter
- Powered by 9VDC radio battery
- Internal Level adjust
- Compressor/limiter to prevent acoustic overload

#### RECEIVER FEATURES

- Crystal IF filter
- Operates on AC or DC
- Helical HF front end
- Monitoring capability: audio, HF carrier level, DC power pack
- Simultaneous audio outputs: balanced low level, unbalanced line
- Transmission indicator light
- Phone jack and volume control for headset monitoring

### MARK V VHF

#### TRANSMITTER FEATURES

- Powered by 9V radio battery
- Completely self-contained hand-held radio microphone
- Durable, lightweight construction for lasting trouble free operation
- Wide dynamic range of audio circuitry eliminates excessive harmonic distortion
- Internal mike level adjust
- Crystal controlled

#### RECEIVER FEATURES

- Crystal IF filter
- Operates on AC or DC
- Helical HF front end
- Monitoring capability: audio, HF carrier level
- DC power pack
- Simultaneous audio outputs: balanced low level, unbalanced line
- Transmission indicator light
- Phone jack and volume control for headset monitoring
