Production Guide

BY JOSÉ ARROYO AND CAROLYN SHAFFER

he following is a list of current projects being produced in Canada. Only TV series and films over one hour are included. Projects are separated into four categories: On Location, Pre-production, Projects in Negotiation, and In the Can. While films in the project stage are subject to change, only those in active pre-production at the time of publication - those who have set a date for beginning principal photography and are also engaged in casting and crewing - are listed under Pre-production. The In Negotiation section is published every other month due to lack of turnover in projects. Films are listed by the name of the company which initiated the project, or by the company that is popularly associated with it. The production company is not necessarily the same company which initiated or is associated with the project.

When two compagnies are different, the name of the production company, if known, is given. If producers ask us not to list a project or to withhold certain credits because of ongoing negotiations, we respect their request.
