Reel annual report
1988 production guide

The following is a list of film and video productions shot in Canada in 1988. The categories are Canadian theatrical features, television features, one-hour television, and foreign theatrical features and television programs.

Although the list is as complete as we were able to make it, there are inevitable omissions and errors, for which we apologize. In some cases, the production company could not be traced, so the information presented may not always be accurate. The information given is the result of our best efforts at the time production was reported.

The publication of this list is for the purpose of providing a complete list of films and television programs produced in Canada in 1988. The list is intended as a reference tool for filmmakers and industry professionals.

The publication of this list is made possible through the support of Telefilm Canada.
