To be continued.

First Choice Canadian stands for quality programming, 24 hours a day, coast-to-coast. To help us succeed, we at First Choice rely on the expertise of Canadian writers, directors, producers, actors and all members of the production community.

We have over \$45 Million allocated for original Canadian programming this year. We have spent over \$350,000 in development to date. We have committed \$18 Million to original Canadian programs and films. So far, we have licenced 216 original Canadian programming hours to be played on our network this year and next. We're just getting started, so we're confident that the list will get longer. But for now we want to thank the producers listed above.
