The figures in the NATIONAL OVERVIEW are the box-office grosses compiled from individual theatres of the four major chains in Canada (Famous Players, Canadian-Odeon, Landmark and Cineplex) in the five major English keys: Toronto, Winnipeg, Edmonton, Calgary and Vancouver. The CURRENT GROSSES are compiled from distributors figures in Montreal. Figures are given separately for each week in the time-frame covered and the accumulated gross is given from the date of release to the last week in the current chart. Slots marked -/- indicate the film did not play during that week.

JVC KY Series—Expanding the Quality Extending the Performance

Introducing the Compact KY-210U Procam

Once again JVC delivers what professionals demand, – a broadcast quality camera with superior mobility and operability.

The KY-210U falls heir to all the cost/capable user-friendly features that have made the JVC KY series the world's most popular professional three-tube color video cameras – and more.

It incorporates such features as prism optics, high resolution (650 lines at center), high signal-to-noise ratio topping 57 dB, ultra light weight 3.5 kg (7.8 lbs.), three Saticon™ tubes and fast f/1.4 prism block.

A wide range of automated functions make the KY-210U so simple to use. Features such as auto-shift registration; auto black/white balance; auto-beam control; auto black level. A flip-up 1.5" viewfinder and conveniently grouped operation switches further enhance ease of operation.

The KY-210U is fully compatible with the powerful, professional CR-4900U – the first 3/4" portable offering real-time, videoconfidence monitoring, and performance specifications such as S.M.P.T.E. time code capability, microprocessor control, shuttle search

with picture, 19.6 lbs. with tape and battery – and much more!

Together, the incomparable KY-210U and the confident CR-4900U offer an unmatched package of professionalism, portability and affordability.

For more information contact your nearest dealer or JVC CANADA INC. In the USA contact JVC COMPANY OF AMERICA, New Jersey 07407.

SOME OF THE WORLD'S BEST FILMMAKERS AREN'T USING FILM AT ALL!

They're using tape. And they're delivering the quality expected of them. Because they're recording with Betacam

And they enjoy working with the new format. No wonder. Film-style mobility with video immediacy.

They're pleased with the simplicity of its on-board, 1/2" cassette-recorder, its full range of lenses; wireless sound and other accessories. All designed to satisfy the demands of filmmakers and their client's needs.

Filmmakers are impressed with Betacam's picture quality — clear, sharp and colourful, with a choice of MF Plumbicon or MF Saticon tubes to address any need or preference.

Computer-assisted set-up of the 3-tube camera, as well as a new outboard paint control box provides the cinematographer with the creative control he requires. Recent advances now allow the filmmaker to monitor and control audio levels from the viewfinder — true manual control of the primary audio channel with automatic record level of background sound if required.

In editing, they're discovering that Betacam allows them trouble-free interface with the integrated range of Sony BVU 3/4" and BVH 1" equipment.

Indeed some of the world's best filmmakers are also using tape. And they're using Betacam. For a great many reasons. You owe it to yourself to investigate the many advantages of Betacam from Sony.
